

How Much Can “Trash Bag” Hold?

“Trash Bag” can hold a MAX of 3,000 Lbs. How much is that exactly you ask?

Some examples for reference.

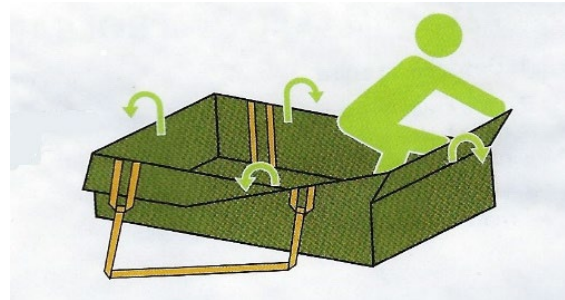

- 47 sheets of drywall (4' x 8', ½” thick)
- 1,280 sq ft of hardwood flooring (¾” thick)
- 180 wood or metal wall studs
- 1 cubic yard (1/3 of bag) of heavy materials like brick, concrete, dirt, rock, sand, sod or stucco

Where and when can I use “Trash Bag”?

Trash Bag is perfect for small to medium home, business and construction projects that your normal trash service can't handle, but doesn't require a full-size dumpster. Suitable jobs might include:

- Renovations & Cleanouts
- Attic & Garage Cleanouts
- Yard Cleanups
- Deck Removal
- Bathroom Renovation
- Kitchen Renovation
- Bedroom Remodels

1. Unfold “Trash Bag”
2. Create ridged sides by standing inside “Trash Bag” and folding sides out and halfway down.
3. Fill “Trash Bag”, placing heaviest materials in bottom.
4. Bring sides up as you fill being sure to keep handles outside of bag and accessible

I've filled my “Trash Bag”. Now what?

1. Schedule-Schedule your collection by calling **305-451-2900**. Provide the collection address, the location of the TRASH bag on the property and the contents. Location must be accessible by Grapple Truck.

2. Pay-Driver can accept your cash or check payment at pick up, **sorry no credit cards taken on-site**. You are welcome to pay with Visa or MasterCard in our office. We can also email you a form to process your Visa or Master Card payment.

3. Relax-We'll come pick up your Trash bag on date scheduled. If you have a conflict or need to cancel, simply give us a call.
